

KEY

- Land to be acquired by CPO
- Land to be acquired by CPO, over which temporary temporary rights are required (for the purpose of construction and working space).

NOTES

1. The land shown is based on OS tile base plans which may vary from actual topographical surveyed features. Any variations will require agreement with the Landowner to determine definitive boundaries.
2. The information on these plans indicates an approximation from multiple sources and its accuracy is constrained by the inherent limitations of Ordnance Survey information and Land Registry records. Suitable agreements should be made on site to establish exact requirements.
