

The National Parks and Access to the Countryside Act, 1949.Objection received to Draft Map.District..... Dussey Rd...... Date... 22 June 1954.....Parish..... North Nibley.....Right of Way No..... CNN9.....Name of Objector Merchant Ventures Bristol per R.G. KilmwoodAddress..... Assistant Land Steward 24 Sibley Sq. Bristol 8.

Nature of Objection

Objection
 That CNN9 should be shown between OS 722 & 720.
 & not through OS. 720a (Is this a draftsman's
 error?)

Reclassify to ~~CNN~~ F.P

Notes by C.S. Dept., following investigation:-

Submitted by Parish Council as far only as is shown marked on O.S.
 through ^{wood} ~~wood~~. When questioned, Parish Clerk stated that it should
 continue ^{North} as shown on Draft map. On site, the track is well worn
 and there is a stile at its East end. From the stile there
 are plain signs of use by pedestrians in an ENE direction to
 a field gate which leads into the South end of CNN 10. The
 field gate has a notice on its top bar "Please shut this gate".
 There is no sign of a track from the wood N to the road
 as indicated at present on draft map, nor is there ^{any} a stile
 at the first boundary from the road. It would seem that
 the NE end of the path, as marked on the draft map is an
 error.
