

Fire and Rescue Scrutiny Committee actions – 4 March 2022

	<i>Topic</i>	<i>Action</i>	<i>Responsibility</i>	<i>Progress</i>
1	Update on the Community Risk Management Plan (CRMP)	To consider developing a version of the CRMP that would be accessible for the visually impaired/ non-readers.	Clive Webber	This will be picked up and considered by the GFRS Business Planning and Performance team at their next team meeting.
2	Update on the Community Risk Management Plan (CRMP)	To consider signposting potential recruits to the CRMP as part of the GFRS recruitment process.	Adam Openshaw	Any future job adverts will contain a hyper link to the CRMP on the GFRS website once it has become a live published document.
3	Update on the Community Risk Management Plan (CRMP)	To include in the CRMP timeline an annual report on GFRS progress towards the net zero carbon target.	Clive Webber	A specific action for an annual report on GFRS progress towards net zero carbon cannot be included in the CRMP because this document is the 4 year strategy for GFRS. GFRS no longer has its own fleet management, this has become part of the Combined Fleet Unit (CFU) at GCC and the zero carbon target is for them to drive and therefore it should be within the CFU plan.
4	Update on the Community Risk	An item on how GFRS aims to achieve net zero carbon to be added to the Committee work plan.	Laura Powick	Completed

	Management Plan (CRMP)			
5	Work Plan 2022	<p>To add the following items to the work plan:</p> <ul style="list-style-type: none"> - Review of Severn Park Joint Training Centre (November) - How GFRS will achieve net zero carbon (the current situation, actions that will be taken to achieve the target) (May) - Emergency Services Network Programme (September) - HMICFRS Inspection Feedback (July) - The future of the Tri-Service Centre (July) - An additional meeting to be arranged to consider the white paper on fire services reform (potentially late March/ early April) - Update on progress to address the two causes of concerns identified during the HMICFRS inspection (May) - Visits to Severn Park/ vehicle workshops at Waterwells (to be arranged). 	Laura Powick	Completed
