2.6 In terms of proportionality, the Schools Forum (England) Regulations 2012 state *“primary schools, secondary schools and academies must be broadly proportionately represented on the forum, having regard to the total number of pupils registered at them”*. In addition, the Schools Forum Operational and Good Practice Guide states *“the balance between maintained primary, maintained*

secondary and academies members must be broadly proportionate to the pupil numbers in each category...”.

- 2.7 In Gloucestershire, the School Census January 2022, reports that there are 47,360 pupils on roll in primary schools and 41,433 on roll in secondary schools. The School Census lists the number on roll at each school, and the table below provides a breakdown of the numbers on roll in primary and secondary local authority maintained schools and academies, alongside the number of Gloucestershire Schools Forum members representing those categories:

Category	Number on roll	Number of Gloucestershire Schools Forum members
Primary (local authority maintained schools)	34,889	6
Primary (academies)	12,471	2
Secondary (local authority maintained schools)	4,578	2
Secondary (academies)	36,855	6

- 2.8 Based on this information, the balance between maintained primary, maintained secondary and academies members, remains broadly proportionate to the pupil numbers in each category. Consequently, no changes are proposed by the local authority to amend the number of members representing those categories on Gloucestershire Schools Forum.
- 2.9 Recommendation 2
The Forum is asked to review and consider the Forum’s current membership structure and bring any questions to the meeting.
