Purpose of Report	To update members on work ongoing for developing an alternative to the Severn Park training facility
Recommendations/ Action sought	
Forthcoming Decisions	
Background Documents	
Appendices	
Contact Information	Rob Barnes – rob.barnes@gloucestershire.gov.yk

A full property board paper will go in September 2023 following several conversations / meetings about the replacement Severn Park training facility, We are looking at 5 strategic sites and a proposed new burn facility in Gloucestershire. This will require a full business case and financial review of the proposed solution.

We continue to work with property colleagues to formulate a plan and suitable training facilities for the change face of GFRS.

We have bid for capital monies to start looking at the sites and the condition of fire stations in line with the corporate asset management plan.
