

Gloucestershire Economic Growth Joint Committee actions – 9 June 2021

	<i>Topic</i>	<i>Action</i>	<i>Responsibility</i>	<i>Progress</i>
1	Gloucestershire Economic Growth Agenda	To include data relating to the Kickstart Programme in the economic recovery dashboard.	Colin Chick	To be included in the dashboard by the 15 September 2021 GEGJC meeting.
2	Gloucestershire Economic Growth Agenda	To confirm whether hospitality job postings have been included in the data on job postings in the economic recovery dashboard.	Colin Chick	The job postings data includes all sectors, with the caveat being they have to be advertised online in order to be picked up. We know some sectors advertise less online and hospitality is one of those, so it may be an underestimate. Unfortunately it's not possible to break postings down by sector, but the slide deck does show a breakdown by the occupations showing the greatest change and you can see a decline in some occupations in the hospitality sector including chefs.
3	Gloucestershire Economic Growth Agenda	To include data on businesses, including data on business start ups and failures, in the economic recovery dashboard.	Colin Chick	Data on business births and deaths is published annually; the latest data currently available is from 2019. We are expecting the data to be updated in November (giving us data for 2020), but the release date is provisional and is sometimes subject to change. Therefore at this

				moment in time it will not be possible to include this in the dashboard.
4	Gloucestershire Economic Growth Agenda	To update the Committee on the progress of the anchor institution task and finish group.	Colin Chick	<p>Update on the anchor institutions work:</p> <p>The Task and Finish group met last autumn but has not needed to meet again.</p> <p>The PWC hub was tasked by GHWB to undertake the following:</p> <ul style="list-style-type: none"> - Develop a set of principles to set our what anchor institutions do – and how these can help to address the causes of health inequalities - Undertake high level mapping of local activities that GHWB member organisations are undertaking that would be classed as anchor institution activity (though might not

				<p>be explicitly labelled as such)</p> <ul style="list-style-type: none">- Undertake a local case study using a social return on investment tool - which will be adapted to enable local orgs to pick up and use to support planning / evaluation of social value- Propose a way forward for developing an anchor institutions approach to addressing health inequalities <p>Progress to date:</p> <p>Principles developed and approved by GHWB in March and shared with ICS Board in April</p> <p>Baseline mapping undertaken – many local examples of anchor institution activity</p>
